Subject:	Against the Annexation of Quigley Canyon
Date:	Monday, November 07, 2011 10:34:34 AM

To Hailey planning and Zoning Commission Members,
Geoffrey Moore, Mark Johnstone, Owen Scanlon, Mike Pogue, and Janet Fugate

Dear Commission Members,

Charlie and I believe Nate Galpin's letter was superb. It outlined and explained exactly how we feel about the importance of Quigley Canyon to the Hailey community and the quality of life we would like to see continue for generations to come.

The answers are simple to the issues facing the P & Z and the Hailey City Council.
The City of Hailey does not need 400+ home sites.
The environment, including water, air quality, wildlife and biological resources, cannot support 400+ new home sites.
The quality of life in Hailey is threatened by 400+ new home sites.
The urban sprawl and traffic problems that go along with it, goes against the City of Hailey's Comprehensive Plan.
Most importantly, the citizens of Hailey cannot afford to pay for the infrastructure necessary for, and maintenance of 400+ new home sites.

The citizens of Hailey have come to recognize that environmental quality is more important for the quality of life in this valley. Unfortunately, this awareness comes after years of environmental neglect: sprawling development beyond urban boundaries, rapid and irreversible conversion of prime agricultural land, loss of unique plant and animal communities, and increased pollution of water and air resources. Please don't let the lure of economic development take precedence over environmental protection.

Thank you for your consideration, and service to our town.

Sincerely,
Janet and Charlie Meyer
150 8th Avenue
Hailey, Idaho
