

#### 4.6 TRANSITIONAL DISTRICT (TN)

##### 4.6.1 Purpose.

The purpose of the TN District is to provide a buffer zone between residential and business areas within the Townsite Overlay District. The zone provides for restricted business activities within residential areas which are directly adjacent to or across a street or alley from established business zones. Uses shall be limited to those that generate relatively little traffic. The residential character of the area shall be maintained by preserving the existing buildings and requiring new building designs in keeping with the residential nature of the area, and requiring adequate on-site parking. The term “Transitional” does not imply that the properties within the district will be transitioning from residential to business zoning.
