Woodside Boulevard Improvements PROJECT UPDATE

January 2011

TWO PUBLIC OPEN HOUSES SCHEDULED : DETAILS INSIDE

It is important for those who use Woodside Boulevard to help identify and shape what improvements will be part of the final design. Come to the open houses to review plans, discuss ideas and provide input.

- Stop by either meeting anytime between 5:30-8:00 p.m. No formal presentations are scheduled.
- Project staff will be available to answer questions and receive comments. Anyone is welcome to attend at either location.
- People requiring special accommodations at the meeting are asked to call in advance.

Woodside Boulevard Improvements PROJECT UPDATE

January 2011

PUBLIC OPEN HOUSES

The City of Hailey invites you to attend an informational open house to learn about possible improvements to Woodside Boulevard.

- **Wednesday, Jan. 26 (5:30-8:00 p.m.)** – Community Campus, 1050 Fox Acres Road, Hailey [Information will focus on improvements between Fox Acres Road and Countryside Boulevard]
- **Thursday, Jan. 27 (5:30-8:00 p.m.)** – Woodside Elementary School, 1111 Woodside Elementary Lane, Hailey [Information will focus on improvements between Countryside Boulevard and SH-75]

UNA JORNADA DE PUERTAS ABIERTAS

La Ciudad de Hailey los Invitan a asistir unas reuniones informativo para aprender sobre los mejoramientos posible para Woodside Bulevar. Dos reuniones estan planeado para el público:

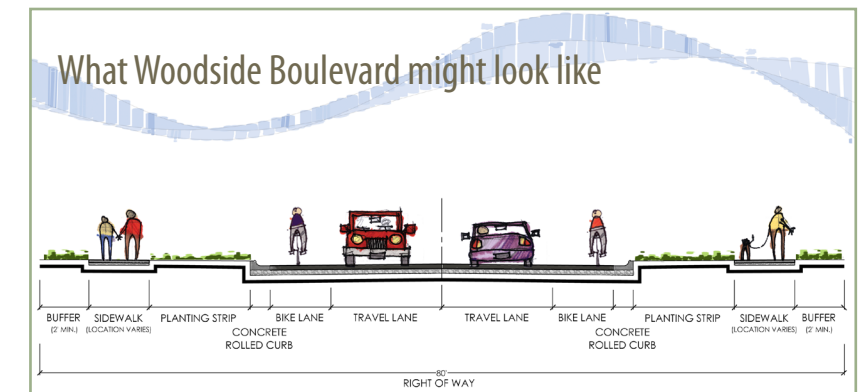

- **Miercoles, 26 de Enero (5:30-8:00 p.m.)** – Community Campus, 1050 Fox Acres Road, Hailey [La Información se enfoca en mejoramientos entre la Carretera Fox Acres y Countryside Bulevar]
- **Jueves, 27 de Enero (5:30-8:00 p.m.)** – En la escuela primaria en Woodside, 1111 Woodside Elem. Lane, Hailey [La Información se enfoca en mejoramientos entre Countryside Bulevar y SH-75 (Carretera 75)]

PROJECT BACKGROUND

Hailey's 35-year-old Woodside Boulevard is one of the busiest streets in Hailey, second only to Main Street (SH-75). The large amount of activity comes from a variety of users – Woodside-area residents, businesses, commuters, students, cyclists, pedestrians, recreationists and more.

The City and residents have recognized the importance of making this a safe transportation corridor. Improving Woodside has been in the City's Capital Improvement Plan for many years, and in 2008, it was identified as the number one priority for residential street improvements by citizens responding to a community-wide survey.

In fall 2010, the City of Hailey was awarded a \$3.5 million grant from the U.S. Department of Transportation to make improvements to Woodside Boulevard. This grant is funded through the Transportation Investment Generating Economic Recovery (TIGER) II Discretionary Grant program. It is one of 42 awarded nationwide and one of only two in Idaho.

The goal of these improvements is to provide a safe corridor for all types of users on Woodside, using "Complete Streets" design principles – which means safely accommodating motorists, transit passengers, bicyclists and pedestrians.

PROPOSED IMPROVEMENTS

The purpose of improvements to Woodside Boulevard is to:

- Slow traffic on the corridor
- Improve pedestrian and bicycle safety
- Repair an aging and deteriorated roadway

Proposed improvements include:

- Sidewalks
- Bicycle lanes
- Landscaping between the sidewalk and road
- Ribbon curb
- Bus pull-outs and shelters; some bus stops and shelters may be consolidated or relocated
- Roundabout at the intersection of Fox Acres Road and Woodside Boulevard
- New traffic signal at the intersection of Woodside Boulevard and SH-75

Typical single lane roundabout

HOW THIS PROJECT MAY AFFECT YOU

- On-street parking will be restricted
- Expect traffic delays during construction activity
- Driveway access may be temporarily blocked off (for example, a few hours or a day at a time) during paving activity
- Right-of-way and temporary construction easements may be required

Long-term benefits:

- Improved safety for pedestrians walking along Woodside Boulevard
- New and continuous bike lanes and sidewalks
- Design features to help slow drivers
- Potential landscaping to create an attractive street
- Gutter to improve drainage along the corridor

PROJECT SCHEDULE

DECEMBER 2010

Informational letter mailed to residents and businesses in Woodside Subdivision

JANUARY 26, 2011

Public Open House #1

[emphasis on North section – north of Countryside Boulevard]

JANUARY 27, 2011

Public Open House #2

[emphasis on South section – south of Countryside Boulevard]

FEBRUARY 12, 2011

Official comment period closes

FEBRUARY 2011

Preliminary Road Design complete

SPRING 2011

City Council Presentation

Project design finalized

SUMMER 2011

Begin construction

[Focus on construction of Roundabout, SH-75 signal, and road surface rehabilitation between Fox Acres & Countryside; other elements planned for construction in 2012]

FORMACIÓN DEL PROYECTO

Woodside Bulevar en Hailey tiene 35 años es una de las calles en Hailey más ocupada, la segunda solo de la calle principal (SH-75). La Cantidad grande de acitividades llega de usuarios en variedad – Los Vecinos del area de Woodside, negocios, personas que viajan diariamente al lugar del trabajo, estudiantes, ciclistas, peatones, recreativo, y más.

La Ciudad y los residents han reconocido la importancia en establecer pasillo de transportacón suguro. Mejoramiento a Woodside ha estado en el plan Capital de la Ciudad de Mejoras por muchos años, y en 2008, en una encuesta de toda la comunidad los ciudadanos identificaron a Woodside como la calle que más necesita mejoramientos.

Lo que se quiere lograr en estos mejoramientos es establecer un pasillo seguro para todo tipo de usuarios en Woodside, utilizando los principios de diseño “Calles Completa” – lo que significa es complacer la seguridad de los automovilistas, pasajeros de tránsito, ciclistas y peatones.

Mejoramientos Propuesto

El propósito de mejoramientos para Woodside Bulevar es para:

- Calmar el tráfico en el pasillo
- Mejorar la seguridad de peatones y ciclistas
- Arreglar carreteras viejas y deteriorada

Mejoramientos Propuesto Incluye:

- Aceras
- Carriles para bicicletas
- Un zona de separación entre la acera y la calle bordillo
- Salida y Cobijos para los autobuses; algunos cobijos para los autobus puede ser consolidado y trasladado
- Rotonda en el cruce de Fox Acres y Woodside
- Semáforo Nuevo en el cruce de Woodside y Carretera Estatal 75 (SH-75)

Paisaje y Estructuras en el Derecho de Paso

Mejoramientos a Woodside Bulevar se anticipa que se termine dentro del derecho de paso de la Ciudad.

La Construcción va a requerir eliminación de paisaje y o estructuras (por ejemplo: pasto, arboles, arbustos, cercas, entrada para autos) Si está localizado dentro del derecho de paso de la Ciudad. Si la entrada para autos esta impactado por el proyecto, la entrada para autos y sus “acceso” sera reconstruido para que pueda manejar y estacionar su carro sin peligro en la entrada para autos.

Antes de la construcción, las líneas de derecho de paso van a estar visiblemente marcada con estacas. Los dueños de la propiedad quizás quieran relocalizar jardines y línea de irrigación (donde sea posible) antes de la construcción.

Envíe sus Comentarios

Los comentarios siempre son bienvenidos y se pueden enviar a:
