

CITY OF HAILEY FLOOD PREPARATION & RESPONSE INFORMATION FOR HAILEY RESIDENTS AND BUSINESSES

Emergency: 911

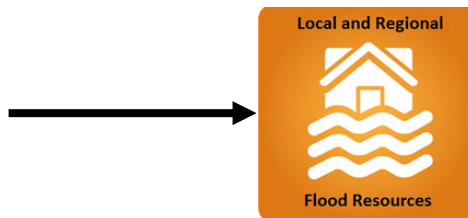

www.haileycityhall.org

City Hall: 788-4221

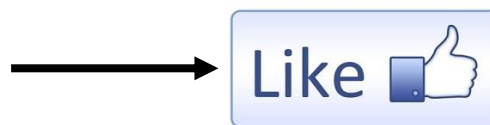

The best place to get current information is at the City of Hailey website. At the top-right of Hailey homepage is Emergency Preparation Information, including current conditions and forecasts.

Below that is a Flood Resources button with information on sandbags, pumps and professional help for the protection of private property.

Preparation and Response Information is posted on Hailey's website homepage in News & Announcements, along with a link to City of Hailey Facebook page.

CITY OF HAILEY PRIORITIES DURING A FLOOD

- 1) Life safety – protecting responders and residents.
- 2) Incident stabilization – keep the situation from worsening.
- 3) Property conservation – protect city infrastructure and property.

If you have a flooding emergency, call 911. The City's response will be led by qualified emergency response personnel. Please follow their direction at all times for your own safety. The City's focus will be for broad protection.

The responsibility for protecting private property lies with each of you. Don't impact your neighbors' property!

WHAT IF I CAN'T USE THE INTERNET?

Information boards will be posted at the Hailey Public Library and at neighborhood information stations when flood conditions require road closures.
