Attach to the application the following information where applicable. Plans in duplicate, drawn to scale showing the nature, dimensions, and elevations of the area in question; existing or proposed structures, fill, storage of materials, drainage facilities; and the location of the foregoing. Specifically, the following information is required: (1) Mean sea level (MSL) elevation of the lowest floor (including basement) of all structures; (2) MSL elevation to which any structure is floodproofed; (3) certification by a registered professional engineer that the floodproofing methods meet the community floodproofing criteria; (4) a description of the extent to which any watercourse will be altered or relocated, and (5) base (100-year) flood elevation data for a development or subdivision.

The proposed development is located in the Floodway Floodfringe
The Base Flood Elevation or depth number at the development site is: 5291e

Source Documents FEMA APRIL 1978

Plan Review

MSL Elevation or depth number to which the structure is to be elevated 5292e ft.
MSL Elevation or depth number to which the structure is to be floodproofed _____ ft.
