Attach to the application the following information where applicable. Plans in duplicate, drawn to scale showing the nature, dimensions, and elevations of the area in question; existing or proposed structures, fill, storage of materials, drainage facilities; and the location of the foregoing. Specifically, the following information is required: (1) Mean sea level (MSL) elevation of the lowest floor (including basement) of all structures; (2) MSL elevation to which any structure is floodproofed; (3) certification by a registered professional engineer that the floodproofing methods meet the community floodproofing criteria; (4) a description of the extent to which any watercourse will be altered or relocated, and (5) base (100-year) flood elevation data for a development or subdivision.

The proposed development is located in the Floodway Floodfringe
The Base Flood Elevation or depth number at the development site is: 102'

Source Documents FEMA

Plan Review

MSL Elevation or depth number to which the structure is to be elevated 103' ft.
MSL Elevation or depth number to which the structure is to be floodproofed _____ ft.

DATE _____

The following is to be completed by the community permit official
All necessary information and certificates are attached.

Action

- The proposed development is not in conformance with applicable Floodplain Management Standards (explanation attached). Permit is denied.
- The proposal is not in conformance with applicable Floodplain Management Standards (explanation attached) and the application is referred to the Board of Adjustment for variance action.
- I have reviewed the plans and materials submitted in support of the proposed development and find them in compliance with applicable Floodplain Management Standards. Permit is approved.

Date 1 JUN 95

Signature Don Mallea

Building construction documentation

The certified as-built MSL elevation of the lowest floor of the structure is 104 1/2 ft.
The certified as-built MSL floodproofed elevation of the structure is _____ ft.
Certificates of a registered professional engineer or land surveyor documenting these elevation are attached.

Certificate of Occupancy or Compliance Issued 5 DEC 95 Signature Don Mallea

DATE 5-26-95

This certification must be filed with the Hailey Building Department at the time of building permit application.

Revised 5-26-95

Min. Fin. Floor ELEV. = 103¹

100 yr. Flood ELEV. = 102¹

ELEVATION BENCH MARK = 100⁰

ELEVATION CERTIFICATE

FEDERAL EMERGENCY MANAGEMENT AGENCY NATIONAL FLOOD INSURANCE PROGRAM

ATTENTION: Use of this certificate does not provide a waiver of the flood insurance purchase requirement. This form is used only to provide elevation information necessary to ensure compliance with applicable community floodplain management ordinances, to determine the proper insurance premium rate, and/or to support a request for a Letter of Map Amendment or Revision (LOMA or LOMR). Instructions for completing this form can be found on the following pages.

SECTION A PROPERTY INFORMATION	FOR INSURANCE COMPANY USE
BUILDING OWNER'S NAME <u>James Burns</u>	POLICY NUMBER
STREET ADDRESS (Including Apt., Unit, Suite and/or Bldg. Number) OR P.O. ROUTE AND BOX NUMBER	COMPANY NAIC NUMBER
OTHER DESCRIPTION (Lot and Block Numbers, etc.) <u>Lot 2 Block 9 Northridge Subd #2</u>	
CITY <u>Hailey</u>	STATE <u>Idaho</u> ZIP CODE <u>83233</u>

SECTION B FLOOD INSURANCE RATE MAP (FIRM) INFORMATION

Provide the following from the proper FIRM (See Instructions):

1. COMMUNITY NUMBER <u>1165167</u>	2. PANEL NUMBER <u>06662</u>	3. SUFFIX <u>A</u>	4. DATE OF FIRM INDEX <u>1981</u>	5. FIRM ZONE <u>A</u>	6. BASE FLOOD ELEVATION (in AO Zones, use depth) <u>102.2</u>
---------------------------------------	---------------------------------	-----------------------	--------------------------------------	--------------------------	---------------------------------------------------------------------

7. Indicate the elevation datum system used on the FIRM for Base Flood Elevations (BFE): NGVD '29 Other (describe on back)
8. For Zones A or V, where no BFE is provided on the FIRM, and the community has established a BFE for this building site, indicate the community's BFE: 1102.2 feet NGVD (or other FIRM datum—see Section B, Item 7).

SECTION C BUILDING ELEVATION INFORMATION

1. Using the Elevation Certificate Instructions, indicate the diagram number from the diagrams found on Pages 5 and 6 that best describes the subject building's reference level _____.
- 2(a). FIRM Zones A1-A30, AE, AH, and A (with BFE). The top of the reference level floor from the selected diagram is at an elevation of 104.2 feet NGVD (or other FIRM datum—see Section B, Item 7).
- (b). FIRM Zones V1-V30, VE, and V (with BFE). The bottom of the lowest horizontal structural member of the reference level from the selected diagram, is at an elevation of _____ feet NGVD (or other FIRM datum—see Section B, Item 7).
- (c). FIRM Zone A (without BFE). The floor used as the reference level from the selected diagram is 2.0 feet above or below (check one) the highest grade adjacent to the building.
- (d). FIRM Zone AO. The floor used as the reference level from the selected diagram is _____ feet above or below (check one) the highest grade adjacent to the building. If no flood depth number is available, is the building's lowest floor (reference level) elevated in accordance with the community's floodplain management ordinance? Yes No Unknown
3. Indicate the elevation datum system used in determining the above reference level elevations: NGVD '29 Other (describe under Comments on Page 2). (NOTE: If the elevation datum used in measuring the elevations is different than that used on the FIRM [see Section B, Item 7], then convert the elevations to the datum system used on the FIRM and show the conversion equation under Comments on Page 2.)
4. Elevation reference mark used appears on FIRM: Yes No (See Instructions on Page 4)
5. The reference level elevation is based on: actual construction construction drawings
(NOTE: Use of construction drawings is only valid if the building does not yet have the reference level floor in place, in which case this certificate will only be valid for the building during the course of construction. A post-construction Elevation Certificate will be required once construction is complete.)
6. The elevation of the lowest grade immediately adjacent to the building is: 1102.0 feet NGVD (or other FIRM datum—see Section B, Item 7).

SECTION D COMMUNITY INFORMATION

1. If the community official responsible for verifying building elevations specifies that the reference level indicated in Section C, Item 1 is not the "lowest floor" as defined in the community's floodplain management ordinance, the elevation of the building's "lowest floor" as defined by the ordinance is: _____ feet NGVD (or other FIRM datum—see Section B, Item 7).
2. Date of the start of construction or substantial improvement _____

SECTION E CERTIFICATION

ification is to be signed by a land surveyor, engineer, or architect who is authorized by state or local law to certify elevation on when the elevation information for Zones A1-A30, AE, AH, A (with BFE), V1-V30, VE, and V (with BFE) is required. Community officials who are authorized by local law or ordinance to provide floodplain management information, may also sign the certification. In the case of Zones AO and A (without a FEMA or community issued BFE), a building official, a property owner, or an representative may also sign the certification.

se level diagrams 6, 7 and 8 - Distinguishing Features-If the certifier is unable to certify to breakaway/non-breakaway wall, size, location of servicing equipment, area use, wall openings, or unfinished area Feature(s), then list the Feature(s) not in the certification under Comments below. The diagram number, Section C, Item 1, must still be entered.

hat the information in Sections B and C on this certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

PERSON'S NAME		LICENSE NUMBER (or Affix Seal)	
BRUCE BUTLER		LS 907	
COMPANY NAME			
SAWTOOTH ENGINEERING, INC			
SURVEYOR		CITY	STATE
		HAILEY	
PO BOX 478		CITY	STATE

should be made of this Certificate for: 1) community official, 2) insurance agent/company, and 3) building owner.

NOTES: Assumed Elevation datum
since A zone & No BFE

Diagrams above illustrate the points at which the elevations should be measured in A Zones and V Zones. Elevations for all A Zones should be measured at the top of the reference level floor. Elevations for all V Zones should be measured at the bottom of the lowest horizontal structural member.
