Subject: Quigley Farm and Sage School Future Campus Site
Date: Monday, October 17, 2016 11:35:36 AM

Dear Council Members

I am writing today to express my support of the Quigley Farm proposal, which includes a future campus site for The Sage School, that your group will be discussing this evening. I have been a resident in Blaine County for more than 16 years and feel this would be an appropriate addition in this location to the City of Hailey. The Sage School campus site within the Quigley Farm Development would allow The Sage School campus to be in close proximity with other county schools, bike paths, Mtn Rides bus routes, and with the new Bloom Farm area that is maintained by the Hunger Coalition.

The Sage School is an innovative and forward thinking educational choice for many families throughout Blaine County. Innovative schools, such as The Sage School, attract new families and businesses to our Valley, which in-turn provides many economic benefits to the community as a whole. Additionally, The Sage School has been located in Hailey for more than 8 years and they are a substantial partner with many community organizations and businesses and The Sage School students provide services to the community on a weekly basis through their community service projects. Having the school campus close to the community is critical for their service mission. This is exactly the type of school and educational opportunity we want to embrace and continue to make welcome in our community and in the City of Hailey.

My family is more than ecstatic that this opportunity exists within the community and the City of Hailey; our older daughter who is now in 10th grade has been a Sage School student for 5 years and our younger daughter will apply for admission for next school year. Do not let this amazing opportunity for the The Sage School to find its permanent home pass by the City the Hailey! I urge you to allow passage of the proposal this evening.

Respectfully,

Bobbi Filbert
